This National Education Policy envisions an education system rooted in Indian ethos that contributes directly to transforming India, that is Bharat, sustainable into an equitable and vibrant knowledge society, by providing high-quality education to all, and thereby making India global knowledge superpower. The policy envisages that the curriculum and pedagogy of our institutions must develop among the students a deep sense of respect towards the Fundamentals Duties and Constitutional values, bonding with one's country, and a conscious awareness of one's roles and responsibilities in a changing world. The vision of the policy is to instill among the learners a deep rooted pride in being Indian, not only in thought, but also in spirit, intellect and deeds, as well as to develop knowledge, skills, values, and dispositions that support responsible commitment to human rights, sustainable development and living and global well-being, thereby reflecting a truly global citizen.
